

Product information

Hand Cream GLOV

100 ml	SUN161C
500 ml	SUN161G

Characteristics

- Extremely fast absorbing care lotion – ideal for glove wearers
- Particularly suitable for dry skin
- Lipid-replenishing and moisturising effect
- Protective and high-quality skin care for everyday use, in particular for regular washing and disinfecting
- Free of colourings

Product type

Hand cream with hand-friendly pH value and skin care effect.

Areas of application

Stressed hands need protection and soothing, which is why GLOV hand cream should be applied several times a day, in particular after activities which are stressful to the skin, like washing hands or wearing gloves for a long time.

Application

GLOV hand cream is a hand lotion for all skin types. The skin cream is absorbed very quickly and leaves no sticky or greasy film on the skin, it is particularly suitable for use after wearing gloves.
